Allowable Subject Matter

Claims 8-10 are allowed over the prior art of record.

Examiner's Reasons for Allowance

The following is an examiner's statement of reason for allowance: The prior art of record neither shows nor suggests a method of making a quartz arc tube for a metal halide lamp comprising all the limitations set forth in claim 8, particularly the limitations of (a) selecting an arc length and an inner diameter for the discharge chamber wherein the inner diameter in centimeters is greater than $[(1+P/50)^{1/2} - 1]$, where P is the input power in watts and wherein the ratio of the arc length to the inner diameter is about one, (b) forming the arc tube; (c) operating the arc tube at a predetermined average wall temperature to obtain a steady state thermal condition; (d) measuring a longitudinal surface temperature profile of the discharge chamber to obtain a maximum temperature and minimum temperature, and repeating steps (b) to (d) while incrementally decreasing the inner diameter of the discharge chamber with each iteration until the maximum temperature of the longitudinal surface temperature profile is midway between the ends of the discharge chamber, and (f) repeating steps (b) to (d) while incrementally varying the electrode insertion length with each iteration until the difference between the minimum temperature and the maximum temperature of the profile is minimized without causing the maximum temperature to exceed about 900°C.

Claims 9-10 are allowed being dependent on allowed base claim 8.

Art Unit: 2879

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
